

1. Health Protection

Overview

Health Protection insurance provides a safety net that shields you from the unpredictable costs of medical care. From routine check-ups and specialist consultations to emergency hospitalisation and surgical procedures, our plans are designed to cover the moments that matter most. We work with a wide network of accredited hospitals and clinics to ensure seamless access to quality care wherever you are.

Our flexible health plans can be tailored to individuals, families, or corporate groups, offering a range of deductibles, co-payment options, and annual benefit limits. Preventive care — including vaccinations, health screenings, and wellness programmes — is built into every policy because we believe keeping you healthy is as important as treating illness. With 24/7 emergency support and a dedicated claims team, getting help is never more than a call away.

Good health insurance is not a luxury — it is the foundation upon which financial security and peace of mind are built.

Policy Options

1. Inpatient & Hospital Cover

Full coverage for hospital admissions, surgeries, intensive care, and prescribed medications during your stay, with no hidden caps on room and board.

2. Outpatient & Specialist Care

Access to GP visits, specialist referrals, diagnostic imaging, and laboratory tests — all processed swiftly so your treatment is never delayed.

3. Preventive & Wellness Benefits

Annual health screenings, dental and optical allowances, mental health support, and maternity care packages that keep your whole family thriving.
