

4. Travel Safety

Overview

Travel broadens the mind, but it also introduces risk — from flight cancellations and lost luggage to medical emergencies in unfamiliar countries. Our Travel Safety insurance is designed to eliminate financial worry so you can focus entirely on your experience. Whether you are heading abroad for a weekend city break, a month-long backpacking adventure, or a business trip, we offer single-trip and annual multi-trip policies that activate the moment you leave home.

Medical emergencies abroad can be extraordinarily expensive without proper cover. Our plans include worldwide emergency medical and hospitalisation cover, medical evacuation and repatriation, and 24/7 access to a multilingual assistance helpline staffed by medical professionals. Beyond health, we cover trip cancellation for unforeseen reasons, travel delays, missed connections, loss of passport and travel documents, and personal liability — so that no matter what goes wrong, you have the resources to deal with it calmly and confidently.

The world is yours to explore — travel insurance ensures a bad day abroad never becomes a financial disaster back home.

Policy Options

10. Medical & Emergency Cover

Worldwide emergency medical treatment, hospitalisation, surgical costs, and medical evacuation — including repatriation back home when medically necessary.

11. Trip Cancellation & Delays

Reimburses pre-paid, non-refundable travel costs if your trip is cancelled, curtailed, or significantly delayed due to illness, bereavement, or unforeseen events.

12. Baggage & Personal Liability

Covers lost, stolen, or damaged luggage and personal belongings, plus legal liability if you accidentally cause injury or property damage to a third party while travelling.
